

## CHARTER BUSINESS® SOLUTIONS FOR EDUCATION

DATA, INTERNET, AND VIDEO SERVICES TO ENHANCE  
A SCHOOL'S EDUCATIONAL EXPERIENCE.

### ■ SIMPLE

Charter Business® is a single source for all the solutions you need to provide students and faculty with up-to-date information and educational resources.

### ■ FLEXIBLE

A Charter Business sales representative will work with you to customize internet, data networking, and video services that meet your unique needs.

### ■ RELIABLE

We provide business-class 24/7 customer support that is backed by local Charter Business technicians.

### WHAT IT IS

Technology and education are more intertwined than ever, and your communications needs are growing rapidly. With Charter Business Solutions for Education, you can provide robust data networking, high-speed internet access, and video conferencing capabilities to benefit teachers, administrators, parents, and students.

### HOW IT WORKS

Charter Business Solutions for Education work with your communications requirements to help you leverage advanced technology and expand your educational offerings.

## WHAT YOU GET

FEATURE	BENEFIT
E-Rate Certified Supplier	Charter Business partners with customers to return credits back to schools through the federal E-rate program—making it easier for you to expand needed network capabilities.
Scalable Technology	Flexible high-speed internet service includes scalable bandwidth and designs, as well as delivery to other district locations using fiber-optic cables.
Business-Class Customer Support	Highly trained customer service representatives provide help around the clock.
Equal Access	Robust networks enable all school buildings and academic and administrative computing networks to share information equally.
Versatile Connections	Use connections for data, phone networks, internal video conferencing, and to distribute dedicated internet access among all buildings.
Reliable Connections	Meet your organization's traffic and security requirements by using our expertise to assist in the design and operation of your network.
Video Options	Video conferencing capabilities allow you to expand educational offerings, teacher training, and community outreach programs using Ethernet-based services.

Contact Charter Business today to get the valuable learning, research, technology, and communication resources you need.
