

A SCALABLE INTERNET CONNECTION FOR THE MOST DEMANDING APPLICATIONS, WITH AVAILABLE EMAIL, WEB, AND DNS HOSTING.

## ■ SIMPLE

Works over a standard Ethernet interface with bandwidth that can be increased without additional connections.

## ■ FLEXIBLE

A “burstable” billing option lets you commit to a lower level of bandwidth and scale up temporarily whenever you need a burst of power.

## ■ RELIABLE

We’re built for mission-critical reliability with 24/7 technical support and local Charter Business® technicians.

## WHAT IT IS

Charter Business Fiber Internet offers symmetrical access speeds up to 100Mbps or even 1Gbps.

## HOW IT WORKS

Get connected directly to our state-of-the-art, fiber-based network for maximum bandwidth and reliability.

## WHAT YOU GET

### EMAIL HOSTING

FEATURE	BENEFIT	CUSTOM DOMAIN
Mailboxes	Add and delete mailboxes as you need them (additional email accounts are available in increments of 1 & 10 for a monthly fee).	20
